

THREE CARD POKER

Three-Card Poker pits you against the dealer. Or you can simply play your own hand. There are three ways to win! All Players must make an ante bet to play.

Bet Against The Dealer's Hand

Each player makes an "Ante" bet to begin the game. The Ante allows you to play against the dealer who will deal you three cards. After you look at your three card hand, you have two options. You can fold, or if you think your hand is high enough to beat the dealer, place an equal wager on the "play" spot. The dealer must qualify with a hand of Queen high or better. If your hand beats the dealer's qualifying hand, you win both wagers. If the dealer doesn't qualify, you win the Ante wager and the Play wager is a push or tie.

Bet On Your Own Hand

Place your bet on the "Pair Plus" spot to play your hand only and not against the dealer's hand. If your hand contains a pair or better, you win. Of course, you must place an Ante wager in order to bet Pair Plus.

Bet Both

Bet an Ante and a Pair Plus to play your hand and play against the dealer. But remember, you must place a "Play" wager or you will forfeit both your Ante and Pair Plus wager.

RANKING OF HANDS

Straight Flush (highest), Three of a Kind, Straight, Flush, Pair. If no hand contains a pair or better, the hand that contains the highest ranking card(s) wins. Ace is high except in 3-2-Ace sequence.
